

VIN GROUP

ISO 9001:2015 Certified

About Us

04 manufacturing units, proudly
Made in India

A trusted brand since 1997

Additive development backed by
in-house R&D

14+ Pan-India branches for supply
and service support

Consistent, ISO-certified quality
products

Continuous development of grades
as per customer requirements

Exporting to 15+ countries
since 1997

Known for reliable customer
service

India-wide network of depots and
dealers for next-day delivery

Product Portfolio by Segment

Plastic Compounding

VinBond – Grafted polymers used as coupling agents
VinFlex 10P – Moisture removal in filled and recycled compounds
Impact+ – Impact modifier for recycled and filled PP compounds
PA-79 – Impact modifier for recycled nylon compounds
FlowMor – Improves flow and dispersion in filled compounds

Injection Moulding

TechnoPurge – Purging agents for fast colour and material changeover
Impact+ – Impact modifier for improved strength in moulded products
PA 01-02 – Improves flow and surface shine in moulded compounds
EliHeat – Moisture removal in moulded products

Rigid PVC / uPVC Pipes

ProAid Series – Cost-effective alternative to CPE
IM-6325 – 100% replacement for imported Chinese CPE
PA 01-02 – Replaces stearic acid and wax with 50% lower dosage
CS Ultra – 100% alternative to calcium stearate (CS)
E-Prime 38 – 100% replacement for ESBO
DuraaStrong - Impact modifier for reprocessed PVC pipes

Plastic Recycling

DessiChem – Moisture removal in recycled granules (dana)
ChamakShakti – Moisture removal with improved shine in PP granules

Transparent Films

ClearPlus 040 – Replaces LDPE 040 in LLDPE / LDPE films at lower cost
PA 16-12A – Eliminates LDPE 040 in PP films without opacity issues

HDPE / PP Laminated Fabrics

LamiAid – Adhesion promoter for PP woven fabric lamination and BOPP bags
PA 16-12L – Increases filler loading and improves adhesion in PP / HDPE lamination
Dessica SPL – Desiccant masterbatch to remove moisture, improve strength and shine

Film Manufacturing

ChamakShakti – Moisture removal with improved shine in carry bags and films
Dessica – Moisture removal in recycled and filled films
MoistGran – Economical desiccant solution for films
Strengthxx – Increases filler loading while maintaining strength

Rotational Moulding

RotoAid – Reduces pinholes, improves surface finish and whiteness in water tanks
RotoChem – Moisture removal with enhanced shine in water tanks

Wire & Cable

Wire & Cable – CableAid (PE / PVC) – Improves flow, output, surface finish and mechanical properties

Rubber Processing

VinFlex NV5 – Desiccant for rubber profiles and pressure-less curing
VinGran S-80 – Predispersed polymer-bound sulphur for rubber curing

Tarpaulin , Lapeta Pipes, PP Strap , PP Sutli

Strengthxx – Enables higher filler loading while enhancing strength, dispersion, and processing efficiency
